

# **BUSINESS CONTINUITY AND DISASTER RECOVERY PLAN**

# **Appleton Wiske Community Primary School**

### **General Statement**

This plan has been developed to be used in conjunction with NYCC's School Emergency Response Guide.

# **Objectives**

The aim of this plan is to assist the business in dealing with, however unlikely, a number of disasters that could affect the ability of the organisation to operate on a day to day basis.

The most likely scenarios in such an event are:

- Loss of whole premises for an extended period through fire or flood or Storm Damage.
- Partial loss of premises, through fire, flood, Storm Damage i.e. loss of a classroom or Admin Offices.
- Large scale loss of property and equipment through fire, flood or theft, particularly IT equipment.
- Loss of information through a catastrophic IT failure.
- Mass unavailability of staff e.g. pandemic.
- Temporary Closure at Short notice (due to severe weather or loss of utilities etc.)

The School Emergency Response Guide details relevant actions to take and the various people and agencies that school should co-ordinate with in the event of an emergency situation arising, and deals with specific issues such as Bomb Threats, Bereavement, Snow Closures, etc. **The Emergency Response Guide is located in the school entrance.** 

This plan aims to demonstrate that all relevant considerations have been made and attempts to illustrate a potential way forward with regard to the organisation's own roles and responsibilities, particularly at a level where matters can be determined by the responsible person themselves.

# **Procedures**

In the event of ANY critical incident on site the following steps should be followed:

- **Step 1** Continually assess the situation for the level of impact.
- **Step 2** Ensure that all persons are not in any imminent danger.

# Step 3 - Call for support:

• Dial 999, if appropriate OR

# **During office hours**

 Call the NYCC Children and Young People's Service on: 01609 532234 to inform them of the situation and request help, if required. If the main switchboard is out of order use 01609 534375.

### Out of office hours

Call the NYCC Emergency Planning Unit on the confidential number (which can be found
in the secure area of the CYPS Info website or within the emergency response guide).
 Inform them of the situation and request help, if required. They will contact the on-call
Assistant Director from the Children and Young People's Service.

These numbers should only be used in an emergency. Please do not give them to the press, parents or members of the public.

# Step 4 - ensure that you:

- Log all communications and actions as and when required as evidence.
- Assemble the Emergency Management Team and relieve them of their normal duties. (See Appendix 1 below for details).
- Refer to the full list of emergency contact numbers.

Where possible, try to avoid closing and try to maintain normal routines.

Where Adverse Public Interest has arisen, the Head Teacher, SLT or SEMT should immediately seek advice from the NYCC Emergency Planning Unit using the numbers shown above.

Governors, Staff and Pupils should not discuss any incident with the media and any media representatives should be referred directly on to the NYCC Press Department on each occasion.

# 1. Loss of Premises through Fire or Flood

It is anticipated that the organisation would not be able to influence the outcome of this eventuality and that matters would be taken over by the NYCC Emergency Planning Unit. This would probably involve the sourcing and fitting out of alternative temporary premises pending a re-build of the building.

Should there be a need to evacuate the site it is envisaged that following normal evacuation procedures staff would escort their pupils to the pre-arranged destination of the **village hall or Methodist Chapel**.

# 2. Partial Loss of Premises

This could be the loss of a single room or area as a result of a fire or a burst pipe, flood etc. It is anticipated that this would put the area in question out of bounds for a considerable length of time but would not, on the whole, severely disrupt the day to day operation of the business.

HandSPR12 – V1

The organisation would again liaise closely with the NYCC Emergency Planning Unit and their Insurers, but would also anticipate assistance in establishing temporary accommodation arrangements in the short term where possible in conjunction with the NYCC Emergency Planning Unit.

It would be the intention, in the first instance, to designate temporary areas. For example, if an area was temporarily out of use a further area would be used, that has computer access and also visitors can be let in to the building safely and securely. If the kitchen is temporarily unavailable arrangements will be made to cook at an alternative site and transport meals to site as long as is required.

# 3. Large Scale Property Loss, Particularly IT Equipment

A significant threat to the satisfactory operation of the business would be a large scale loss of IT equipment, such as whiteboards, projectors, PCs, laptops, tablets and/ or networking or Wi-Fi. Due to the layout and size of the building it may be that certain areas would still be in use whilst some areas closed and if so maybe utilised in the short to medium term. For example if EYFS were closed, a temporary classroom could be set up in the school hall, as could other classrooms. In liaison with the NYCC Emergency Planning Unit, their Insurers and ICT Services it is anticipated that being able to re-order and replace lost items as a matter of urgency will be a priority and would expect to be back up and running within at least one month, if not sooner. A partial loss only of equipment would be accommodated by a re-distribution of remaining resources and loaned items may be made available. Several electronic copies and a hard copy of the inventory are kept. Wi-Fi, laptops and iPads / tablets could be used if a loss of hard-wiring is unavailable through a power surge.

# 4. Loss of Information Through Catastrophic IT Failure

Rather than the loss of actual equipment, this would involve the loss, or destruction, of the Server and all the school data and information that is stored on it. To safeguard against this eventuality the Server is backed up on a daily basis through the 'cloud'.

#### **Backups**

Backups are performed on the network (curriculum server each day as a matter of course).

### **Covering Critical & Essential Data**

The office computer is linked to the school server. Many programmes used by the office staff are web based and backed up automatically. Schools ICT can recover files on request.

# 5. Mass Unavailability of Staff (e.g. Pandemic)

It is likely that in such a scenario the organisation may not be the only one affected. In the first instance advice will be available from the on-call Assistant Director, from NYCC Children & Young People's Service or the Health & Safety Risk Manager at NYCC and the local Public Health England (telephone numbers available within the emergency response folder). Once advice had been obtained and passed on to parents as appropriate the organisation will then need to consider the opening/closing arrangements having regard to ensuring the safety of all pupils and existing staff, visitors, contractors on the premises. In an effort to staff the business, the following procedures would be invoked:

- Existing Supply Staff used by the organisation in the ordinary course of events.
- Recently retired staff still covered by DBS/safer recruitment requirements used as available.
- Other Supply Agencies

It is recognised, however, that subject to the scale of the pandemic in the locality and the availability of staff from any of the above sources, it may not be possible to fully operate the business and at that point a decision would be taken whether to partially, or fully, close the building and for how long. At all times the safety of both children and staff would be of paramount importance, although every effort would be made to keep the site open and functioning.

# 6. Closure at Short Notice (due to severe weather, loss of utilities, internal flooding etc.)

The organisation may decide that in the interests of safety it is appropriate to send pupils home early. The organisation may also be contacted by one or more operators suggesting that an early departure is advisable where severe weather or road access are perceived to be hazardous. These representations will need to be taken into account to determine the appropriate course of action.

The priority of the organisation will be to inform Staff, Parents and the LA in this order of any closure as soon as is possible.

The following procedure is identified via the **Unavoidable Closure Checklist** (See Appendix 2):

- All staff will be informed verbally if during the day and by personal telephone call if at another time.
- All Parents will be informed by text or phone.
- The LA will be informed by phone call or email by the Responsible Person.
- Local Radio will be informed of the circumstances.
- Any transport booked for that day will be informed by the Responsible Person.
