

Appleton Wiske Community Primary School Homework Policy

We believe homework consolidates and reinforces skills and understanding in English, mathematics and other curriculum areas. It helps raise the level of achievement of individual pupils and provides opportunities for parents and their children to work together. We value the support of parents/carers and we believe that this policy will be successful if there is a strong partnership between home and school which is reflected in the Home-School Agreement. We recognise the importance of leisure time so our policy aims to provide an appropriate balance of work and play. A breakdown of how homework is structured in our school is provided below. This has been designed to encourage a gradual progression of skills and expectations. By the time children reach Year 6 they should have established a clear routine in preparation for secondary school.
